in 1 day, if needed

Strong senior team

80% of our engineers have
4-12 years of experience

Successful cases

over 50 projects since 2016

about us

Since 2016 ImproveIT Solutions provides expert software engineering services and is mostly approached for dedicated software development teams. Two core focuses are web/SaaS and mobile app development.

Our managing partners feature around 15 years of combined experience in IT, project management and tech staffing. **Meet them:**

our services

web development

Web portals, SaaS, CRM, ERP systems, etc. for various needs. Enjoy efficient management of any business activities, streamline workflows and digitize your business

iOS development

Development of applications of any type and complexity for the Apple ecosystem - from simple apps and entertainment platforms to individual SaaS solutions

android development

Whether you need - an app for an Android smartphone, wearable, or TV - given the broad range of those devices, we can create apps for everything - from smartwatches to smart shoes

quality assurance

Our quality control team verifies that developed functionality meets business objectives, and ensures that code is bug-free before a product release

project management

Our dedicated project managers ensure that all your expectations and requirements are met, supervise performance, and make sure that your product is delivered on schedule

hybrid mobile development

If you need to develop and launch a cost-effective MVP very quickly, choose cross-platform technologies. We use the most popular of them, such as React Native and Flutter

engagement models

dedicated team

We provide full-time engineers to work as your own remote development center:

- team with a focus on 1 customer
- your full control over selection, management and outcome
- daily direct communication with engineers
- total feel of "your own remote team"

part-time outstaff

Get 1 or more developers to join your team part-time:

- ad-hoc extension for your team
- ability to cover peak overflow work with our developers
- no obligation for full-time engagement – pay for the exact number of hours you need
- direct management of resources

product development

We take full responsibility for your product, from user and market research to UI, UX concepts, development, and support:

- new software product delivered
- full set of services from one supplier
- reduced time-to-market
- project completed within the agreed budget and deadlines

benefits from fast hire

We can provide a developer within this tech stack in just 1-2 days. If you are looking for another skill set - we can hire the needed talents for your project in a couple of weeks

our clients

We work both with early-stage startups and corporations mostly from Swiss, French, Dutch, UK, German and US markets.

Our approach:

- management of time zones & cultural differences
- data protection and following legal business standards, GDPR
- providing convenient payment options

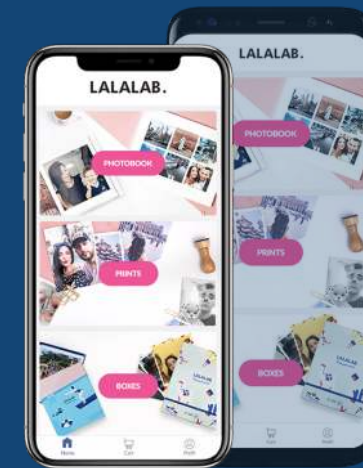

case studies

Lalalab

New way of printing service: directly from a client's mobile app

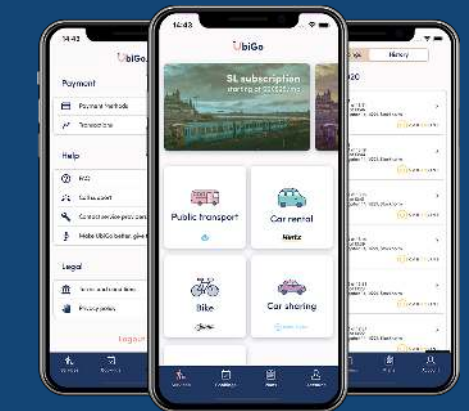

Cedemo

Toy and video games retail content platform

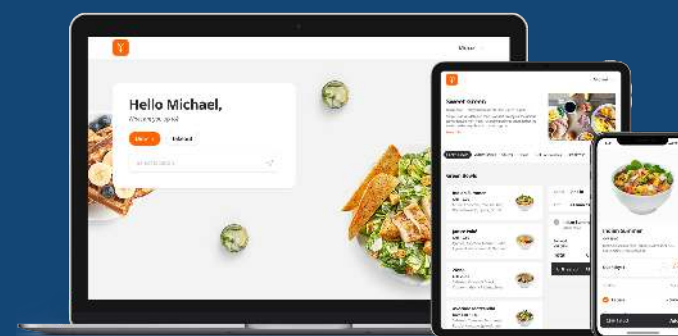

Ubigo

Application that provides different ways of locomotion within the city

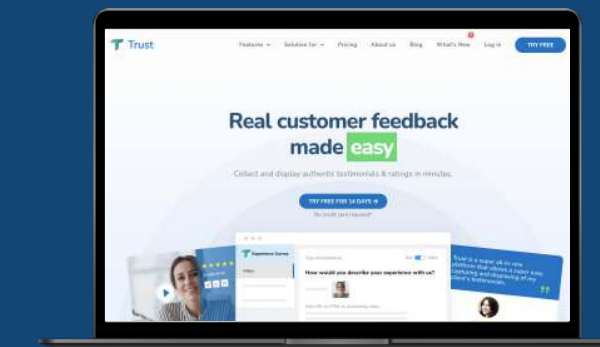

Menu

Advanced digital restaurant platform with omnichannel order, pay and guest engagement

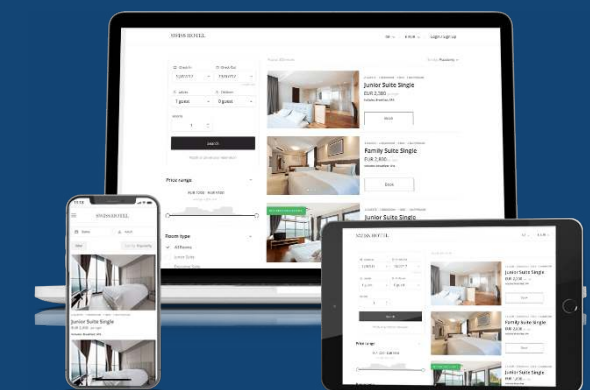

Trust

Testimonial and rating platform for building brand loyalty and customer trust

Hotel-Spider

Hospitality solutions: booking engine, channel manager and reservation system

testimonials

Carsten Schaefer

Founder, Trust

📍 Germany

"With a limited budget, we have been able to master 3 new tools: Rich Snippet, Rating-Widget, Survey. This is a good outcome that helped me and my Lead Frontend developer. Now we can go on and add smaller features from time to time. I wish our ImproveIT Solutions developer all the best for his future and career"

Yannick Blondeau

CTO, Hotel-Spider

📍 Switzerland

"With ImproveIT Solutions, we successfully created reliable and valuable cooperation. Their ability to advise and provide professional guidance made them a go-to partner. The engineering team has demonstrated outstanding dedication & technical skills and proved focus on delivering top quality features"

Aleksander Gassowski

Co-founder, Halpa AB

📍 Sweden

"Working with ImproveIT has been a smooth ride from the start. We got several candidates to choose from and got the opportunity to get to know them before we made our pick. We are very pleased with our resources. The development delivery was good and it's obvious they try to understand our situation to match our needs. ImproveIT has been flexible showing that they seek solutions beneficial for us as a customer"

Romain Coirault

CEO, LALALAB

📍 France

"Since we started to collaborate, we were excited about the quality of service. Developers are experienced; they can discover the main potential issues and can solve them beforehand. We are satisfied with the way how ImproveIT works, about the delivery of results, and the experience that ImproveIT brings to us"

Didier Gromaire

CTO, Cedemo

📍 Monaco

"ImproveIT Solutions serves as a partner to our company, and our relationship is honest, productive, and efficient. ImproveIT Solutions is a highly adaptive team that offers helpful insights and delivers work at reasonable rates"
